LDC ECO/OCEAN FRIENDLY TRAVEL TIPS

As divers, we share a deep respect for our ocean planet and the diversity of life it supports. We also know what's at stake if we don't protect our environment. Divers can make a difference. Each time we travel, dive and immerse ourselves in new destinations, here's what we can do to help:

- **Leave Only Bubbles:** Minimize waste and pack your trash for home.
- **Take Only Pictures:** Leave shells, coral and other natural treasures in place.
- **Be Buoyant:** Avoid touching reefs and other natural areas with your body, dive gear, cameras and other underwater equipment.
- **Lighten Your Lodging Footprint:** Turn off lights, reduce air conditioning, reuse towels and conserve water.
- **Choose Sensible Seafood:** If seafood is on the menu, make sustainable choices.
- **Buyer Beware:** Learn the facts before buying souvenirs made from wildlife. (Note; All sea turtle products are illegal)
- **Support Marine Protected Areas:** Contribute via park fees, donations and volunteerism.
- **Set an Example:** Cleanup trash, never intentionally touch, feed or handle marine life, and set examples like these for others to follow.

LDC DIVERS CAN MAKE A DIFFERENCE!

BECOME PART OF LDC'S CITIZEN SCIENCE TEAM

COCO VIEW HONDURAS

LDC's ECO/Ocean-Friendly Trips offer opportunities for our divers to engage in conservation programs that are science-based and sustainable while benefiting local communities. Working as 'citizen scientists,' our divers assist local experts with projects to protect marine species, native habitats and the environment. Our hope is that while LDC divers will contribute locally, their stories about these meaningful adventures will be shared globally to educate others for years to come.

At the Coco View Resort, we are offering the following Citizen Science opportunities to LDC divers:

(Each program can be added onto your trip. Please view the pricing on the reverse side of this flyer)

CoCo View Resort is a leading supporter of the Roatan Marine Park (RMP), a non-profit organization formed by local dive operators and businesses to protect their fragile coral reefs. Donations from LDC divers enable RMP to conduct marine patrols, prevent overfishing, and engage residents in conservation efforts such as plastic bottle recycling and re-usable shopping bag campaigns. Suggested donation \$2 per day per person. Learn more at roatanmarinepark.com.

Sea Turtle Photo ID -- Our chance encounters with the sea turtles of Roatan can contribute to their conservation. During this day-long adventure to the island's west end, divers will learn to identify sea turtle species while our photographers capture images for scientists to identify individual animals and assess their populations. Price includes boat transportation and 3 tank dives. Learn more at turtleprotector.org.

Coastal Cleanup -- Trash on beaches including beaches on Roatan's poses many threats to wildlife including nesting sea turtles and young hatchlings. Toward the end of our Coco View adventure, LDC's divers are invited to participate in a voluntary group effort to help remove trash while recording detailed information on the types and quantities of debris collected.

— PROGRAM COSTS —

Participate in Some or ALL!
